Indication: The PureWick™ Female External Catheter used with the PureWick™ Urine Collection System is intended for non-invasive urine output management in female patients. **Contraindication:** Do not use the PureWick™ Urine Collection System with PureWick™ Female External Catheters on individuals with urinary retention.

Warnings: To avoid potential skin injury, never push or pull the PureWick™ Female External Catheter against the skin during placement or removal. Never insert the PureWick™ Female External Catheter into the vagina, anal canal or other body cavities. Do not use the PureWick™ Female External Catheter with a bedpan or any material that does not allow for sufficient airflow. Discontinue use if an allergic reaction occurs. Not recommended for users who are experiencing skin irritation or skin breakdown in device contact areas. Please consult package insert for more detailed safety information and instructions for use.
